Why refer to FCA Reports Australia?

We are an independent, Occupational Therapist-led NDIS (National Disability Insurance Scheme) assessment service. We deliver evidence-based Functional Capacity Assessment (FCA) reports to Support Coordinators, Plan Managers and Allied Health Professionals across Australia.

Independent & NDIS-aligned

Peer-reviewed reports built around the reasonable-and-necessary requirements and the six NDIS functional capacity domains. Independent of accommodation and support providers — no commercial bias.

Experienced multidisciplinary team

Occupational therapist-led, with physiotherapy involvement. Extensive experience across ABI, MS, Parkinson's, Huntington's, psychosocial disability, autism, intellectual disability, POTS and complex physical disability.

Telehealth available Australia-wide

Secure assessment via Zoom and Microsoft Teams, reaching every postcode with no travel costs or postcode limits and flexible, fatigue-aware scheduling.

Coordinator-friendly process

A single point of contact, clear timelines, a 5-business-day turnaround and a 2-week clarification window after the report is issued.

Who we assess. NDIS participants across physical, psychosocial, autism, intellectual, neurological and sensory disability profiles.

Assessment services. Our primary focus is Functional Capacity Assessments (FCAs). We also provide Supported Independent Living (SIL), Specialist Disability Accommodation (SDA), Short Term Accommodation (STA), Individualised Living Options (ILO) and Assistive Technology (AT) assessments, alongside supporting NDIS evidence reports.

The assessment process

A simple, transparent five-step pathway — from referral to report — that your participant, and you, can rely on.

1

Referral received

Submit via our secure online referral form or by email. Every referral is acknowledged within one business day.

2

Telehealth assessment

A comprehensive virtual clinical interview of approximately two hours, which can be split across two shorter sessions for fatigue management.

3

Documentation review

We review the NDIS plan, medical reports, behaviour support plan, allied health reports and any prior FCAs provided with the referral.

4

Report preparation & quality assurance

Drafting against the NDIS reasonable-and-necessary framework, with structured peer review before the report is issued.

5

Final report delivered

The comprehensive FCA report is delivered within five business days of the final clinical interview.

Clarification window. For two weeks after the report is issued we answer clarifying questions and provide minor points of clarification on the findings at no additional cost.

PRICING & SCOPE

Comprehensive Functional Capacity Assessment

All-inclusive · no hidden fees

$2,910

The $2,910 fee covers: the telehealth assessment (up to two hours), documentation review, clinical reasoning, the comprehensive FCA report with quantified support-hour recommendations, structured peer review and quality assurance, and a two-week clarification window after the report is issued.

This fee is for the Comprehensive Functional Capacity Assessment described above.

Sample report

A de-identified sample FCA report is available on request — so you can evaluate report quality, structure and clinical depth before referring. Email info@fcareportsaustralia.au or visit fcareportsaustralia.com.au/support-coordinators.

Conditions frequently assessed

Our model is built around complex, high-support cohorts, and we assess across the full breadth of NDIS disability profiles:

- Autism Spectrum Disorder
- Intellectual disability
- Acquired brain injury
- Parkinson's disease
- Stroke
- Functional Neurological Disorder
- Chronic pain
- Neurological conditions
- ADHD
- Psychosocial disability
- Multiple sclerosis
- Huntington's disease
- Cerebral palsy
- POTS
- Physical disability
- Degenerative conditions
