Why Refer to FCA Reports Australia?

We are an independent, physiotherapist-led NDIS assessment service delivering evidence-based Functional Capacity Assessment reports to Support Coordinators, Plan Managers and Allied Health Professionals across every postcode in Australia.

Fast Turnaround

Comprehensive FCA report delivered within **7 business days** of the final clinical interview — keeping plan reviews and home-and-living applications on schedule.

Australia-Wide Service

100% telehealth delivery via secure Zoom and Microsoft Teams.

- Telehealth assessments available nationally
- No travel costs · no postcode limits
- Reduced wait times compared to in-person providers

Experienced Physiotherapy Team

Extensive NDIS experience across complex and high-support cohorts:

- Neurological conditions · ABI · MS · Parkinson's · Huntington's
- Psychosocial disability · complex PTSD · bipolar · schizophrenia
- Intellectual disability and Autism Spectrum Disorder
- POTS · chronic pain · degenerative conditions
- Complex physical disability and equipment-driven cases

Independent & Evidence-Based

We do not provide SIL, SDA, STA or any home-and-living service. Every assessment is genuinely independent — the structural credibility the NDIA increasingly demands.

- Objective recommendations · no commercial bias
- Detailed functional analysis across all 8 NDIS domains
- Reports aligned with the 6 reasonable-and-necessary criteria
- Comprehensive clinical justification of every support recommended

Want to see the quality of our reports?

We can share a de-identified sample FCA report. It's the fastest way to understand the depth and structure of evidence we deliver.

Assessment Process

A simple, transparent 5-step workflow your participant — and you — can rely on.

1**Referral Received**

Submit via our online form or email. Acknowledged within 1 business day.

2**Telehealth Assessment**

Comprehensive virtual clinical interview, approximately 2 hours (can be split across two shorter sessions for fatigue management).

3**Documentation Review**

Review of NDIS plan, medical reports, behaviour support plan, allied health reports and any prior FCAs.

4**Report Preparation & QA**

Drafting against the NDIS reasonable-and-necessary framework, with structured peer review prior to issue.

5**Final Report Delivered**

Comprehensive FCA report delivered within 7 business days of the final interview, plus a 2-week clarification window at no extra cost.

PRICING

Comprehensive Functional Capacity Assessment**\$2,910**

Including GST · NDIS price-guide aligned

All-inclusive · no hidden fees

Includes: Telehealth assessment (up to 2 hours) · Documentation review · Clinical reasoning · Comprehensive FCA report · Quantified support-hour recommendations · Structured peer review & QA · 2-week clarification window after report issue.

SAMPLE REPORT AVAILABLE UPON REQUEST

A de-identified sample FCA report is available on request — purpose-built for Support Coordinators and referral partners who want to evaluate report quality, structure and clinical depth. Email info@fcareportsaustralia.com.au or visit fcareportsaustralia.com.au/support-coordinators.

Conditions Frequently Assessed

Our physiotherapy-led model is built around complex, high-support cohorts — but we routinely assess across the full breadth of NDIS disability profiles.

- | | |
|------------------------------------|---------------------------|
| ● Autism Spectrum Disorder | ● ADHD |
| ● Intellectual Disability | ● Psychosocial Disability |
| ● Acquired Brain Injury | ● Multiple Sclerosis |
| ● Parkinson's Disease | ● Huntington's Disease |
| ● Stroke | ● Cerebral Palsy |
| ● Functional Neurological Disorder | ● POTS |
| ● Chronic Pain | ● Physical Disability |
| ● Neurological Conditions | ● Degenerative Conditions |
